CloverVille User Guide (Reference Manual),

Version 1.0 Date:12/10/2025

Overview

CloverVille lets you manage a village of members, track their personal points, and pool green points toward shared goals. You add and edit villagers, log green activities to earn points, set and complete green goals, create and finish trades between villagers, and coordinate shared tasks that split points among participants. The Info tab shows totals and the current active goal so you always see where the village stands.

Prerequisites:

- JavaFX files
- Java IDE

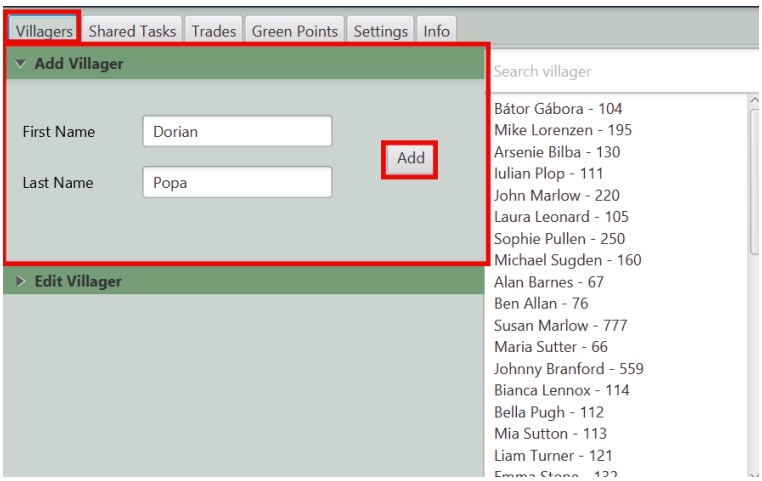
Main Tasks

Villagers

Purpose: Add, edit, or remove villagers and see their points.

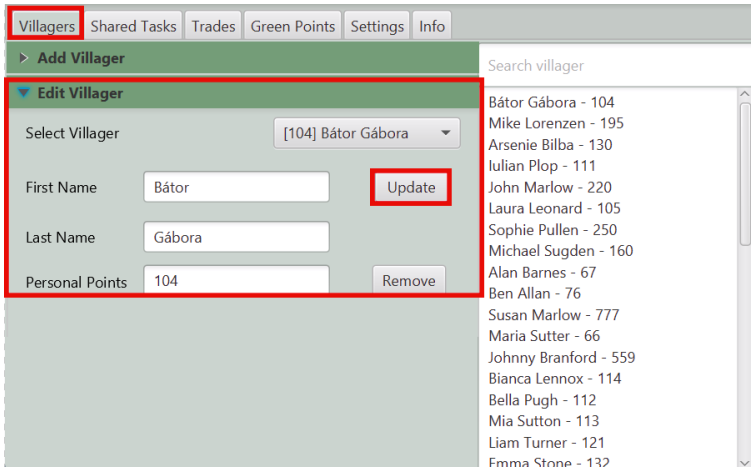
Steps to add a villager:

1.In the Villager tab, select Add Villager.
3.In First Name, type the first name.
4.In Last Name, type the last name.
5.Click Add.



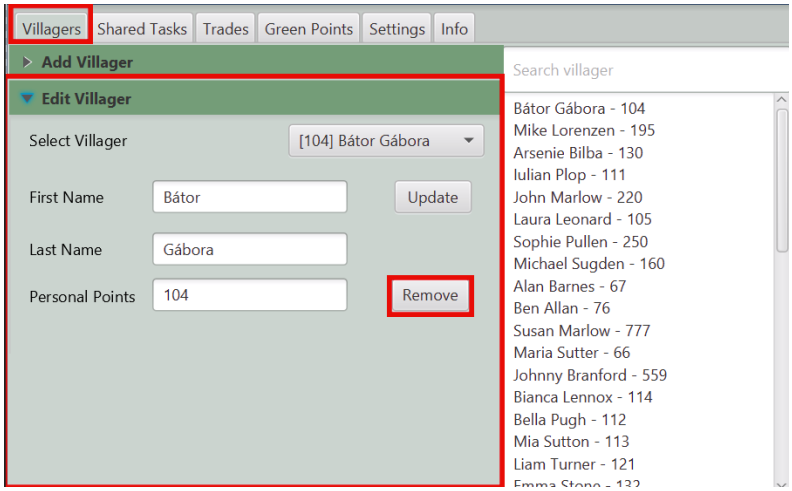
Steps to edit a villager:

1.In the Villager tab, select Edit Villager.
2.Select a villager from the dropdown menu.
3.Update First Name, Last Name, and Personal Points.
4.Click Update.



Steps to remove a villager:

1.In the Villager tab, select Edit Villager.
2.Select a villager from the dropdown menu.
4.Click Remove.

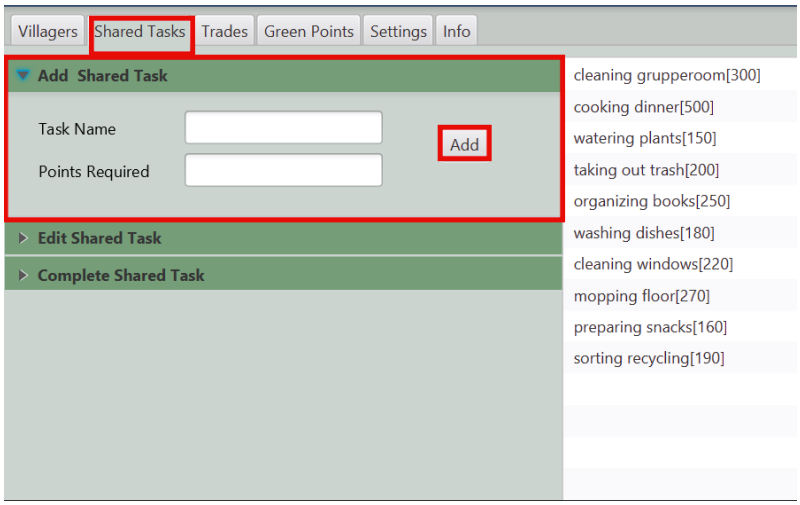


Shared Tasks

Purpose: Track tasks done by several villagers and split points.

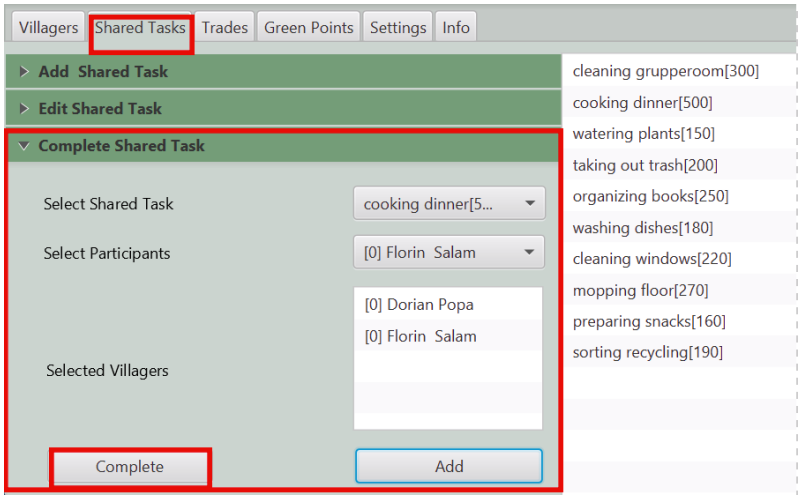
Steps to add a shared task:

1.In the Shared Task tab, select Add Shared Task.
2.In Task Name, type the task.
3.In Points Required, enter the points to award.
4.Click Add.



Steps to complete a task:

1.In the Shared Task tab, select Complete Shared Task.
2.In Select Participants, choose a villager and click Add (repeat for all).
3.Click Complete.
Notes: Points are split among performers; villagers below average points get a 20% bonus.

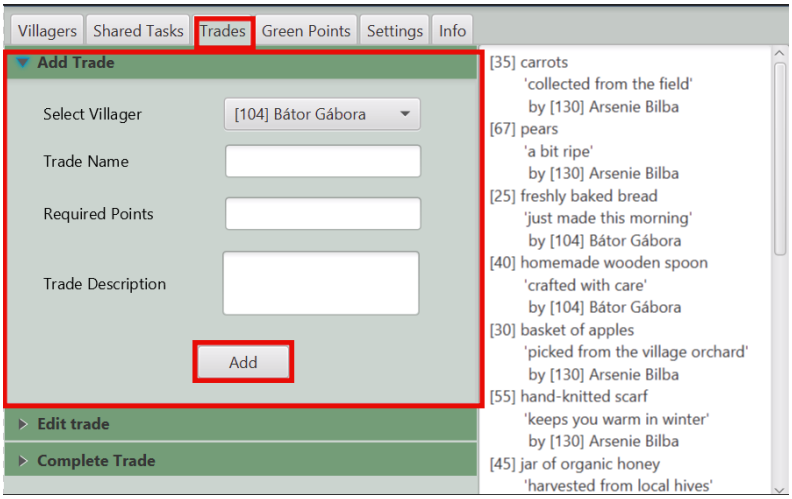


Trades

Purpose: Offer and complete trades between villagers.

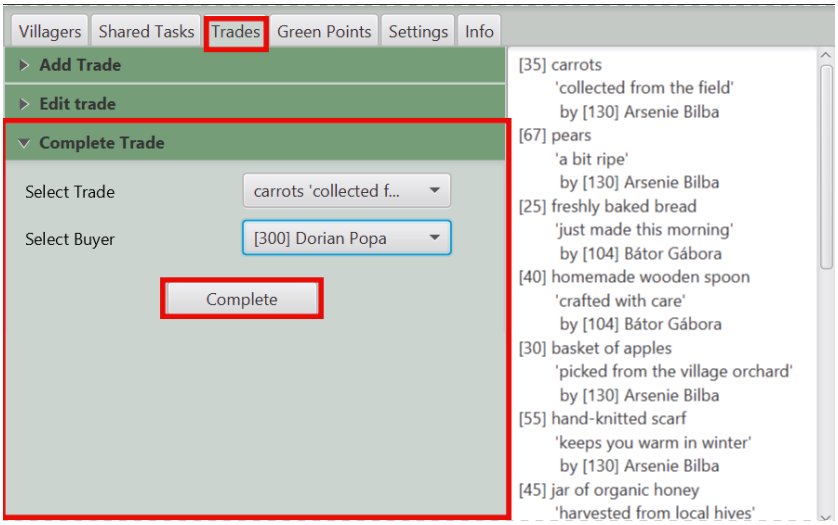
Steps to add a trade:

1.In the Trades tab, select Add Trade.
2.In Select Villager, pick the seller.
3.Enter Trade Name
4.Enter required Points
5.Enter trade Description.
6.Click Add.



Steps to complete a trade:

1.In the Trades tab, select Complete Trade.
2.In Select Trade , choose a trade.
3.In Select Buyer, pick a villager.(Only villagers with enough points are displayed)
4.Click Complete.



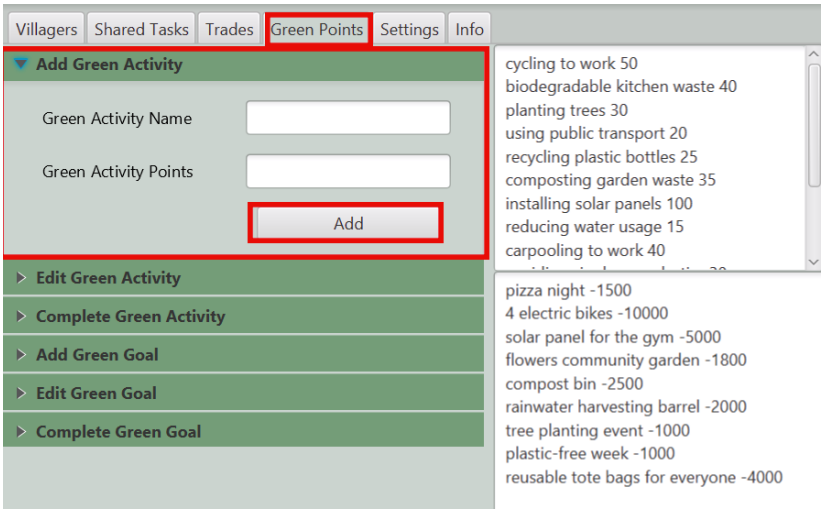
Notes: Buyer loses points; seller gains the same amount. Buyer cannot be the seller.After the completion the trade is removed.

Green Points & Goals

Purpose: Add activities that earn points and set village goals.

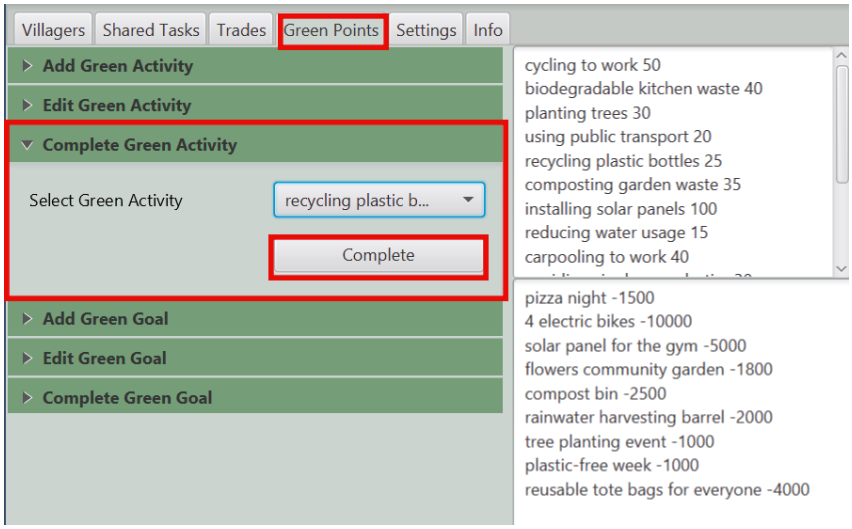
Steps to add a green activity:

1.In the Green Points tab, select Add Green Activity.
2.Enter Green Activity Name
3.Enter Green Activity Points.
4.Click Add.
Notes; Adding a unique Green Activity will automatically count it as completed therefore adding its point to the green pool.



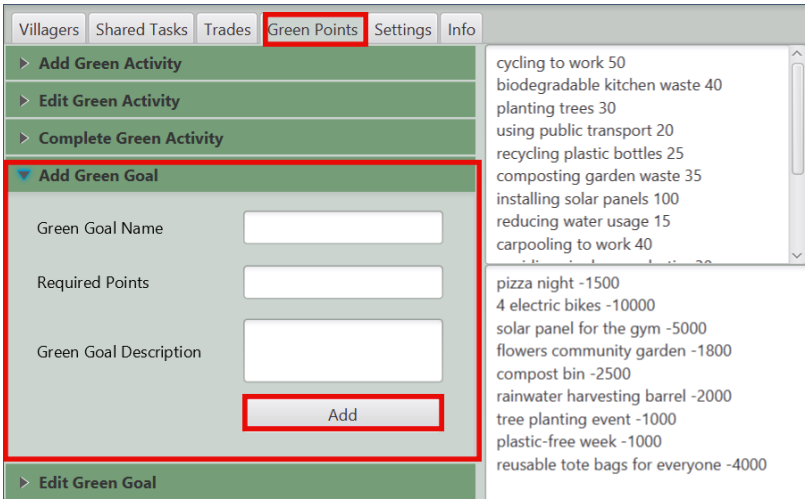
Steps to complete a green activity:

1.In the Green Points tab, select Complete Green Activity.
2.Select a Green Activity.
3.Click Complete (adds its points to the green pool).
Notes; Repeat this process as many times needed for every villager completing it.



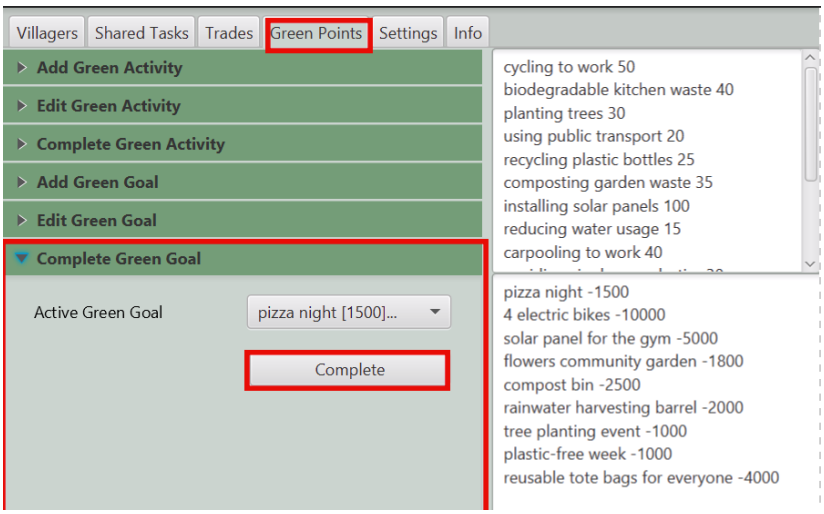
Steps to add a green goal:

1.In the Green Points tab, select Add Green Activity.
2.Enter a green goal name.
3.Enter Required Points.
4.Enter Green Goal Description.
4.Click Add.



Steps to complete the active green goal:

1.In the Green Points tab, select Complete Green Activity.
2.Select a Green Goal (The active green goal is automatically set)
3.Click Complete (spends the required points).
Notes: You need to have enough green points to complete it.

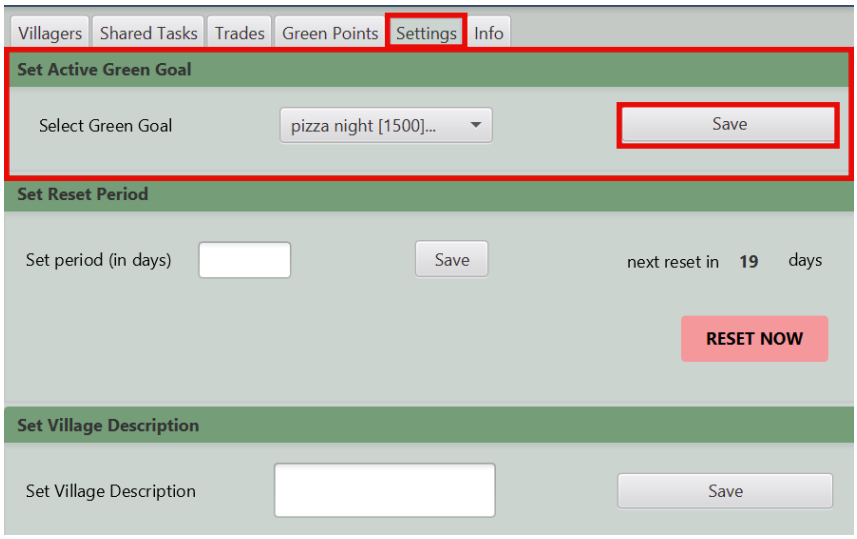


Settings

Purpose: Set the active goal, reset schedule, and village description.

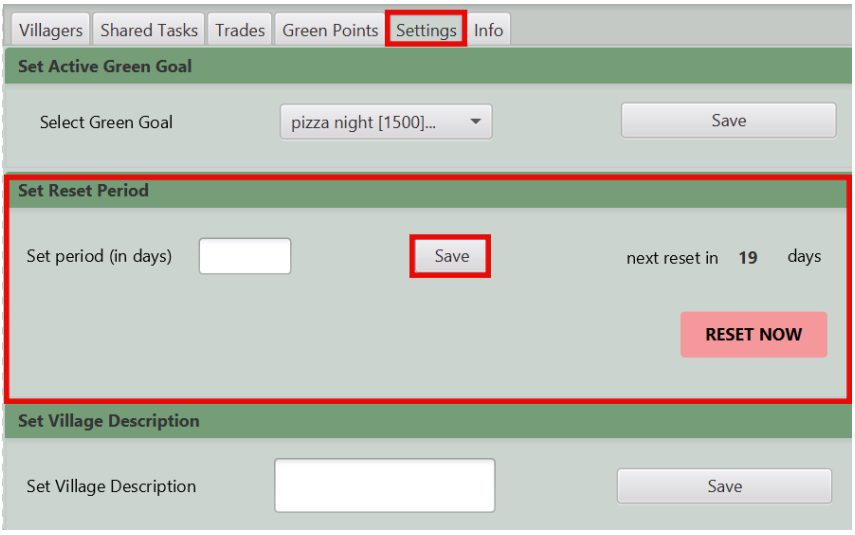
Steps to set active green goal:

1.In the Settings tab,Set Active Green Goal section, select a green goal.
2.Click Save.
Notes:This will be set as the active goal also as the goal displayed on the website.



Steps to set reset period:

1.In the Settings tab,Set Reset Period section, enter a number of days.
2.Click Save.
ALT
1.In the Settings tab,Set Reset Period section,press RESET NOW.
Notes:Reseting moves all personal points to the green pool.

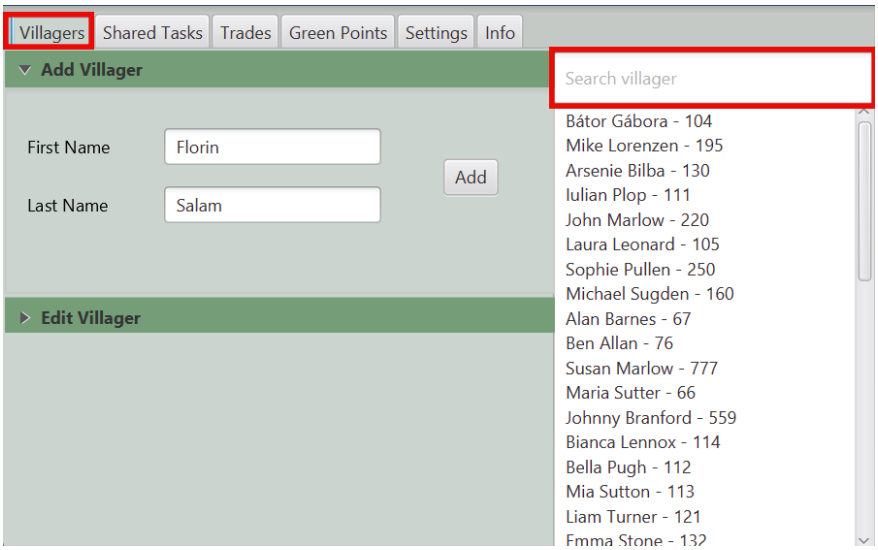


Known Limitations

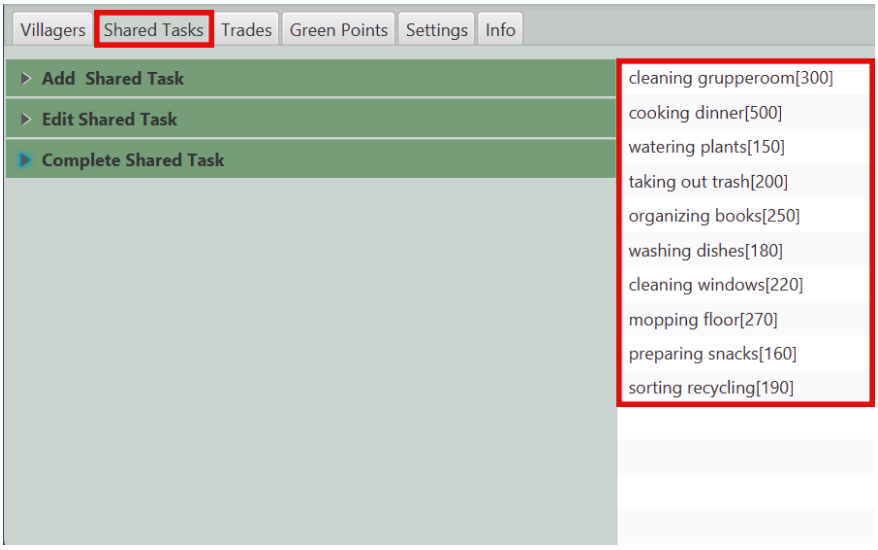
- Points fields accept only whole positive numbers.
- A buyer must have enough points and cannot be the seller.
- Completing a shared task needs at least one performer selected.

Tips

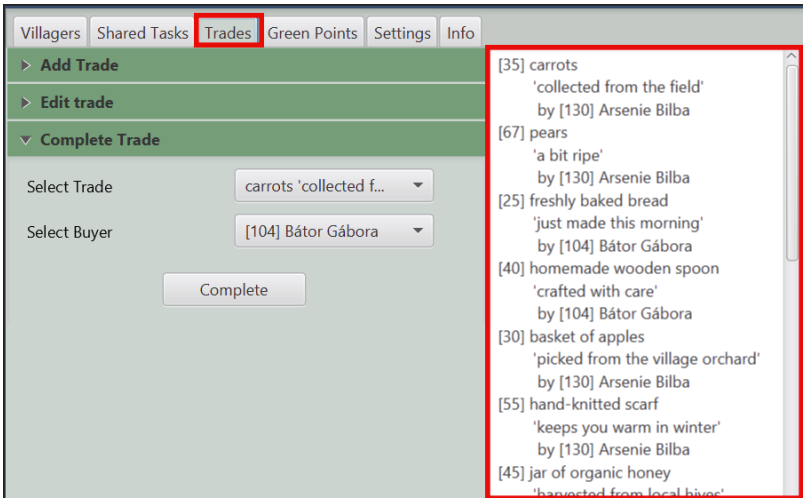
In the villager tab use the search bar in Villagers to filter by first or last name quickly.



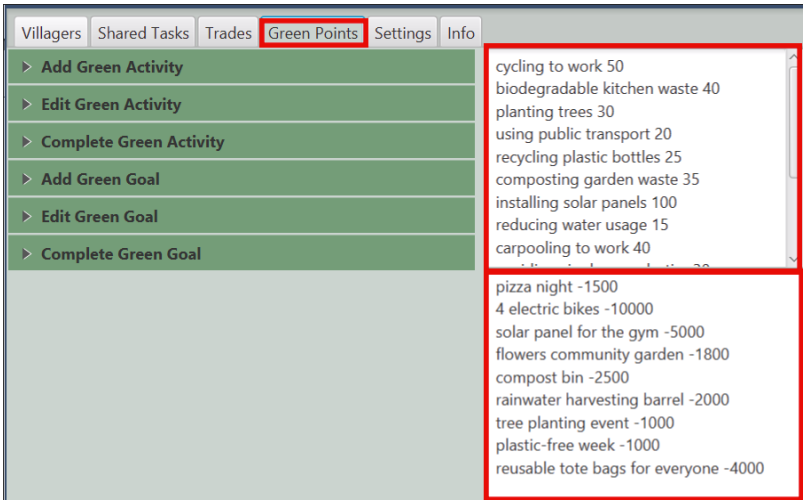
In the Shared Task tab you can see the list of available Shared Tasks on the right.

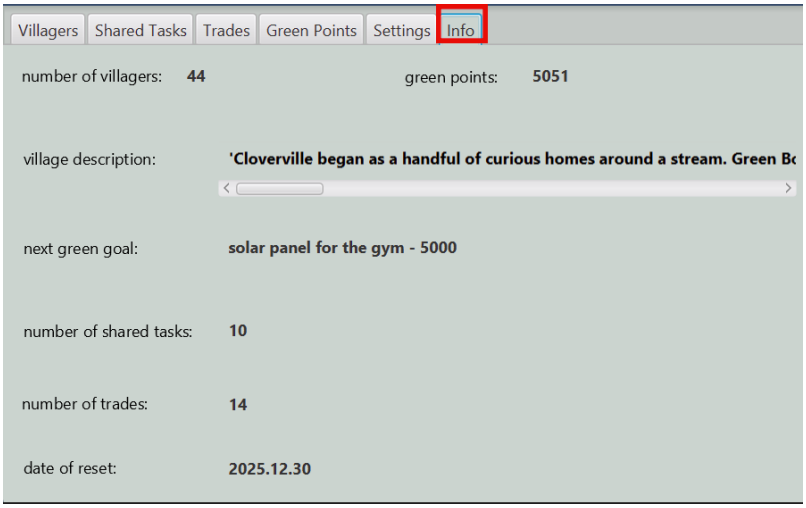


In the Trades tab you can see the list of available trades on the right.



In the Green Points tab you can see the catalogue of ideas on the upper right and the list with green goals on bottom right.





In the Info tab you can see all the general information about the village.
